Digital Scholarship Webinars

Come and explore our latest acquisition on October 21 at 12pm: the Gale Digital Scholar Lab. The first Zoom session, "Building a Dataset" will demonstrate how to build a corpus using Gale's Primary Sources through searching for documents (or uploading our own) and adding them to our content set.

Join us on October 24th at 12pm via Zoom during Open Access Week for our "Authors' Rights and the Publishing Industry" workshop. Building your curriculum vitae requires publishing in quality academic journals (subscription-based or open access). This workshop will assist you in selecting the right journal, ascertaining your rights as an author, and exploring the problem of predatory publishing practices and how to avoid becoming a victim.
